

EQUINE ULTRASOUND

TAKE ANOTHER LOOK...

For nearly 40 years, we've manufactured animal-specific ultrasound right here in the US. Now we've done it again... the next generation of our flagship system, the **NEW EVO**.

With improved image quality and battery performance, the **EVO III** provides equine ultrasound in a rugged, portable machine.

- Images comparable to EDGE II, M-Turbo
- New broadband probes for all species—great for equine or mixed practices
- Customized, veterinary-specific exam presets
- Gestation tables, customizable annotations, split screen
- Post-exam image editing, unlimited record length
- USB export
- WiFi streaming via EVOSTream app
- Ruggedized case, splash resistant, and portable [just over 6 lbs]—sealed keyboard and probe connections allow easy cleaning
- Designed and manufactured in Colorado

TRANSDUCERS NEW, IMPROVED!!

eCL3
2-5 MHz macro convex
transducer, 30cm.

eCLi4*
3-7 MHz curved rectal probe,
24cm.

eL14
6-14 MHz tendon, 8cm.

eC6
4-9 MHz micro convex,
18cm.

eC9
5-10MHz micro convex,
12cm.

eL7
5-9 MHz linear rectal,
18cm.

eC90PU
5-10 MHz broadband array
for transvaginal oocyte
aspiration in horses and
cattle.
Adjustable handle, small
height, lightweight.

*SPOTLIGHT...eCLi4

A low-frequency, deep penetrating curved rectal transducer for imaging larger and deeper tissues, such as later-term pregnancies. With an array based on the CL3, this uniquely versatile probe can do double duty for abdominal, thoracic, and axial skeletal imaging as well.

Transrectal image of equine kidney with eCLi4 transducer

A WORD ABOUT OUR CABLES...

IBEX® cables tested to 1.2 million flex cycles without breaking

- Custom designed cables are abrasion resistant
- Only manufacturer to design all transducers specifically for animal use
- Kevlar reinforced

...AND OUR NEW TRANSDUCERS

As part of our commitment to innovation, we have re-designed our probes for improved penetration and resolution. Broadband, variable frequency, our transducers are designed specifically for rugged environments. But if the worst happens, they can be repaired right here in our Colorado facility.

E.I. MEDICAL IMAGING

E.I. Medical Imaging® was founded in 1984 with the vision of developing state-of-the-art, real-time ultrasound to serve veterinarians and livestock producers world-wide.

Our products have evolved with the needs of the market. We are the only manufacturer of portable ultrasound systems engineered and developed in the United States specifically for the animal industry.
