

THE NEW LITENXT

IT'S HERE...THE NEW IBEX LITENXT

For 40 years, we've manufactured animal-specific ultrasound right here in the US. Now we've done it again... the next generation of bovine ultrasound is here!

The LITENXT sets a new image standard for bovine ultrasound.

- 30% smaller than the traditional LITE ultrasound
- New HYBRID eCli6 broadband probe — the GAME CHANGER!
- New InSite NXT headset—3x resolution & brightness, 70% larger image size
- 34fps
- Built-in WiFi streaming via IBEXStream app
- Auto stand-by mode—allows 20% savings when not scanning, increasing battery life beyond the 5 continuous hours [1 battery]
- Completely redesigned image software with the latest technology [tissue harmonics, synthetic imaging]; simplified bovine-specific exam presets
- Legendary IBEX ruggedness—designed and tested for the harshest bovine environment
- Designed, manufactured, supported in Colorado

eCLi6 HYBRID TRANSDUCER

The new, patent-pending **eCLi6** transducer is hardwired to our latest **IBEX LITENXT** ultrasound machine and is a hybrid probe for transrectal imaging in large animal species (cattle and horses most commonly). *Formerly available only on the EVO III and SA2.*

The **eCLi6** transducer is unlike anything you've seen before!

This unique rectal probe offers the resolution of a flat linear with the deeper penetration and wider field-of-view of a convex model. The short array and tight pitch optimize image quality, while the very slight curvature makes ideal contact with the mucosal surface in a minimal-height form factor.

Based on the overwhelmingly positive response since we started testing it last fall, this transducer is a game-changer for both bovine and equine reproduction.

Outperforms any standard rectal probe for image clarity, arms-in or arms-free.

See for yourself—free demo, no obligation! Call us at 1.866.365.6596 or go to www.eimedical.com/contact_us... you'll be glad you did!

E.I. Medical Imaging—ultrasound solutions for your practice. Made in the USA since 1984.

A WORD ABOUT OUR CABLES...

IBEX® cables tested to 1.2 million flex cycles without breaking

- Custom designed cables are abrasion resistant
- Only manufacturer to design all transducers specifically for animal use
- Kevlar reinforced

E.I. MEDICAL IMAGING

E.I. Medical Imaging® was founded in 1984 with the vision of developing state-of-the-art, real-time ultrasound to serve veterinarians and livestock producers world-wide.

Our products evolved with the needs of the market. We are the only manufacturer of portable ultrasound systems engineered and serviced in the United States specifically for the animal industry.
