

# THE NEW LITENXT

## IT'S HERE...THE NEW IBEX LITENXT

For 40 years, we've manufactured animal-specific ultrasound right here in the US. Now we've done it again..the next generation of bovine ultrasound is here!

The **LITENXT** sets a new standard with image quality never seen before in a bovine ultrasound.

- 30% smaller than the traditional LITE ultrasound
- New **HYBRID eCLi6** broadband probe —combines a linear and curved linear into one.
- New **InSite NXT** headset with latest in display technology—OLEDs with 2x the resolution & 3x the brightness...70% larger image size
- Faster frame rate— up to 60fps
- Built-in wireless streaming to your phone or tablet
- Auto stand-by mode—allows 20% savings when not scanning, 5 hours continuous scanning on 1 battery
- Completely redesigned image software with the latest technology [tissue harmonics, synthetic imaging]; simplified bovine-specific exam presets
- Legendary IBEX ruggedness—designed and tested for the harshest bovine environment, manufactured, supported in Colorado

## eCLi6 HYBRID TRANSDUCER

The new, patent-pending **eCLi6** transducer is hardwired to our latest **IBEX LITENXT** ultrasound machine and is a hybrid probe. The **eCLi6** transducer is unlike anything you've seen before!

This unique rectal probe offers the resolution of a flat linear with the deeper penetration and wider field-of-view of a convex model. The short array and tight pitch optimize image quality, while the very slight curvature makes ideal contact with the mucosal surface in a minimal-height form factor.

Based on the overwhelmingly positive response since we started testing it last fall, this transducer is a game-changer for bovine reproduction. Outperforms any standard rectal probe for image clarity, arm-in or arm-free.

See for yourself—free demo, no obligation! Call us at 1.866.365.6596 or go to [www.eimedical.com/litenxt](http://www.eimedical.com/litenxt)...you'll be glad you did!

### A WORD ABOUT OUR CABLES...

IBEX® cables tested to 1.2 million flex cycles without breaking

- Custom designed cables are abrasion resistant
- Only manufacturer to design all transducers specifically for animal use
- Kevlar reinforced

## E.I. MEDICAL IMAGING

E.I. Medical Imaging® was founded in 1984 with the vision of developing state-of-the-art, real-time ultrasound to serve veterinarians and livestock producers world-wide.

Our products evolved with the needs of the market. We are the only manufacturer of portable ultrasound systems engineered and serviced in the United States specifically for the animal industry.

*E.I. Medical Imaging—ultrasound solutions for your practice. Made in the USA since 1984.*
